Testing Security 2

Example testing-security-2 can be browsed at https://github.com/apache/tomee/tree/master/examples/testing-security-2

Help us document this example! Click the blue pencil icon in the upper right to edit this page.

Movie

```
package org.superbiz.injection.secure;

import javax.persistence.Entity;

@Entity
public class Movie {

    private String director;
    private String title;
    private int year;

    public Movie() {
    }

    public Movie(String director, String title, int year) {
        this.director = director;
        this.title = title;
        this.year = year;
    }

    public String getDirector() {
        return director;
    }

    public void setDirector(String director) {
        this.director = director;
    }

    public String getTitle() {
        return title;
    }

    public void setTitle(String title) {
        this.title = title;
    }

    public int getYear() {
        return year;
    }

    public void setYear(int year) {
        this.year = year;
    }

}
```

Movies

```
package org.superbiz.injection.secure;

//START SNIPPET: code
